

Let us all walk together

(On the occasion of the synodal process)

Diocese of Saint-Jean-Longueuil

1. Let us all together
Life makes sense when we care for each other
Christ is telling us to go
Where God leads us
When the Spirit says so

Let us step into the silence
Where other voices could be heard
The Spirit guides us through thick and thin
Inviting us to listen

Chorus

Him, you, her and them
All of us together
In a different way
A church for today
A space where each of us can find a place
God's call for the Church to live faithfully

2. Let us all walk together
Life makes sense when we care for each other
Christ is asking us to dare
To bear everything in prayer

A few more steps in one direction
Towards our brothers and sisters in need
That's where the Crucified lives
It's God's life we're called to give

Chorus

Him, you, her and them
All of us together
In a brand-new way
A Church for today
A treasure worth revealing
God's call for the Church, to live faithfully

1. Let us all walk together
Life makes sense when we care for each other
Heaven must be overjoyed
When with one heart, we open our doors

A few more steps to take us forward
Let us be what God calls us to be
God's dream is for today
The time has come to be on our way

Final chorus

Him, you, her and them
All of us together
In a different way
A church for today
A space where each of us can find a place
A people of God

Him, you, her and them
All of us together
In a brand-new way
A Church for today
A treasure worth revealing
God's call for the Church, to live faithfully
